FEEDBACK WEB APP

Team Number - 27

Problem Statement: Create a Feedback Web App for Students with respect to Teachers

Link to Solution: https://github.com/raghavmathur1/Team-27-Feedback-Web-App

Team Members: Bikash Kangabam **|** Ishanuj Barman **|** Raghav Mathur

Approach To Problem

Procedure to solve the problem.

1. Establish a proper User Interface for easy use.

2. Completely accessible on any device.

3. Stress free process for teachers while viewing feedbacks.

4. Proper data management.

5. Structured showcase of data.

# Key Features

What makes this special?

100% Responsive

Persistent Data

User Friendly Interface

                 ▼
         ARRAY DISPLAYED
```

What's Next

What we'll do in the next 24 hours.

1. Establish a proper database and server for easy use.

2. Make login functionality for teachers and faculty to view feedbacks

Thank You!!
